Talk training testimonials

Joanne Griffiths, Production Manager, Rocialle in Health.

I would not hesitate to recommend Talk Training to any Company looking for a professional and efficient training provider.

Nicola Smith, Senior Administration Manager, Morgan Sindall Construction and Infrastructure Ltd.

We have engaged with Talk Training for many levels of Administration over a number of years. We have always found the service very professional and efficient. Their training representatives are always reliable, helpful, and have a friendly approach which has always put my employees at ease. Most recently the training has become more digital which saves a lot of time for myself as a manager for sign off. Both the students and myself are kept up to date with progress. I would not hesitate to recommend Talk Training to any Company looking for a professional and efficient training provider.

Gethin Jones CEng MIET MIRSE, Technical Director, Amey Consulting.

I particularly liked the way the course was setup with a lot of emphasis on self-study but with monthly meetings with the tutor to provide guidance and feedback and also workshop sessions in groups who were undertaking the course at the same time which provided opportunity for discussion, this meant I could fit the course work around my day job.
